Technical Seminar - How accurate Utility Survey can help your project progress and safety?

The seminar was held from 9:30 am to 10:30 am and was presented by Ir Dr. King WONG in the same venue as Award Presentation Ceremony. This seminar was introducing the relationship between the accuracy of Utility Survey and the progress and safety of project.

Ir Dr. King WONG firstly introduced the basic background of Utility Survey and the features of different roles involved in Utility Survey. Then, he shared his experience and views on causes of Utility Incidents in order to clarify and eliminate the public misunderstanding and misconception about Utility Survey.

Other than these, Ir Dr. King WONG demonstrated some successful projects on Utility Investigation and brought out some new directions on Utility Survey in the future.

Through this seminar, audiences knew more about how utility survey benefits construction projects on the issue of safety, progress and efficiency and had an overview on Utility Survey.

Technical Seminar – Utility Specialists in the New Era

The seminar was held right after the Award Presentation Ceremony, from 11:50 am to 12:30pm, Ir Dr. King WONG was the speaker of the seminar. This seminar was about the brief introduction of nowadays Utility Specialist.

Firstly, Ir Dr. King WONG introduced few emphases of HKIUS. They are 4 Main Objectives, 5 Pillars, 4 Success Factors and 1 Continuing Improvement. Then, Ir Dr. King WONG further elaborated the details of each of them.

Especially for 5 Pillars, Ir Dr. King WONG mentioned that he was quite confident that HKIUS performs well in most of these aspects, except Professionalization. He believed that Utility Specialists are in lack of personnel recognition and need more supports from the clients and the public.

Besides, Ir Dr. King WONG shared the ideas of 4 Success Factors and demonstrated how these factors nurture and enhance the growth and development of Utility Survey industry.

Lastly, Ir Dr. King WONG demonstrated new initiatives of HKIUS and illustrated the ideas of Project 348 for continuing improvement.

After attending this seminar, audiences had a comprehensive and thorough understanding about HKIUS and Utility Specialists.
