# Evaluation

## *Appreciation*

Staff was responsible to their own duties. They arrived at the hotel at 15:00 to set up the venue. Therefore, they had enough time to remove some of the leaflets from the souvenirs for guests. The venue set up much earlier than the ceremony start.

Everyone can coordinate with others smoothly.

The souvenir for Ir HON Chi-keung, JP was useful and meaningful, so he can place it on the office.

We prepared extra name badges for some of the guests, so everyone can have their name badges.

## *Improvement*

Some of the guests were not interested in playing Bingo, so we can decide another game for the guests on the next function.

We had to update the Attendance List before the ceremony, because we missed the name badges for several guests. Fortunately, we had extra name badges for them.
