The 4th International Conference on Utility Management and Safety 2014

Background

The International Conference on Utility Management and Safety (ICUMAS) 2014 is a major event held by International Institute of Utility Specialists (IIUS), China Association of City Planning - Underground Pipeline Committee and China International Center for Economic and Technical Exchanges, to discuss popular issues on utility management and safety. It is the first time to organize ICUMAS outside Hong Kong, any individuals or corporations interested are welcome to take a role in this event.

Establishment of International Standards

Different practices are adopted by different utility parties all over the world. By strengthening the communication among the utility professionals, ICUMAS would facilitate the establishment of international standards in utility industries. This year our theme is Utility Total Asset Management which focuses on the comprehensive management of utilities.

Communication Platform

ICUMAS provides an excellent platform and opportunities in keeping abreast of latest knowledge and experience about utility management and safety, offering a channel to network with utility specialists, and promoting continuous cooperation among utility industry worldwide.

Personal Development

The delegates would have a precious opportunity to learn about the latest practices and developments in utility planning, production, management and safety from the four corners of the world.

Open Forum -
The public interest in reducing road opening and safer excavation by using a GIS based at the utility information center

Open Forum -

The public interest in reducing road opening and safer excavation by using a GIS based at the utility information center

The first conference on utility safety and management was begun in November 2003 in Hong Kong organized by HKIUS. The forum was about the importance of having a unique GIS based Utility Information center for all underground utilities and how to make use of the center to avoid unnecessary excavation and prevent accidents. It drew much attention from the public. With time flid, the conference had reached to international regions.

Open forum -

Electricity supply lines (Protection) regulations proposed revision to the code of practice on working near electricity supply lines

In September 2004, there was another open forum organized by HKIUS at the Chiang Chen Studio Theatre of The Hong Kong Polytechnic University. It attracted around 200 participants to the forum including government officials, consultants, contractors, utility undertakers and utility surveyors.

Technical Seminar on Contemporary Legal in the Utility Industry of Hong Kong

With the growing concerns within the utility industry over the current legal issues arising in recent years from the identification, protection and management of various underground utility facilities in our city, HKIUS held a technical seminar on Contemporary Legal in the Utility Industry of Hong Kong in September 2005.

Technical Seminar on Contemporary Legal in the Utility Industry of Hong Kong

The Greater China Conference on Utility Safety & Management

Anticipating to the plentiful potential opportunities and the responsibility to promote the rapid development of urbanization market in the Greater China (Mainland China, Hong Kong, Macau and Taiwan) in the near future, HKIUS jointly organized a Greater China Conference on Utility Safety & Management with 中國城市規劃協會地下管綫專業委員會, HKARMS, HKIE-SSC, HKIUS, IOSH (Hong Kong) at Chiang Chen Studio Theatre of The Hong Kong Polytechnic University on 14 -15 September 2007.

The Greater Conference

The 1st ICUMAS was therefore launched in March 2009 which attracted around 300 delegates from around the globe including China, USA, Europe, Australia, and Singapore etc.

The 2nd ICUMAS was held in 2011 which solicited keen supports from 70 organizations from government departments, academic institutions, professional associations from local, mainland china and overseas. The conference received overwhelmingly enthusiastic response that attracted over 500 engineering, surveyors, safety and utility practitioners, government officials, academics representatives and utility field consultants.

The 3rd ICUMAS had been successfully completed in November 2013 which gathered around 400 delegates who represented no less than 35 different countries. In conclusion, the past ICUMAS have drawn great attention and embarked on the road of success.

ICUMAS 2014 Keynote Speakers

Ir WAI Chi-sing, JP, Permanent Secretary of Development Bureau (Works), HKSAR
韋志成工程師, 香港發展局常任秘書長(工務)

The representative from Ministry of Housing and Urban-Rural Development of the People's Republic of China
中華人民共和國住房和城鄉建設部代表

Guest Speakers

Other speakers of ICUMAS would be the representatives come from Macau, Malaysia and Australia, just to name a few.

The speakers will bring the latest and most valuable information to participating guests.

Registration

Apply the Summit by filling in the registration form attached with this pamphlet or download from the link: <http://www.hkius.org.hk/icumas2014/registration/>

Call for Papers

Papers which fall within the general theme "Utility Total Asset Management" of the conference will be considered for presentation. Conference proceedings will be published and made available at the conference. An abstract (maximum of 300 words) should be sent to the conference secretariat no later than 15 August 2014. The Technical Review Board members would review the collected abstracts. Papers will be accepted on the basis that the named author will attend the Conference in person to make the presentation. Paper are being received from universities and underground utility companies respectively.

Formation of 1st IIUS Committee – Inviting Fellow Members

International Institute of Utility Specialists (IIUS) was established in year 2013 with headquarter in Hong Kong. It aims to promote and advance the knowledge and practice of underground utility services, to create, and to maintain of a high standard of professional qualification in utility surveying, to provide condition assessment and management, to enforce technical aspect standardization, to promote personnel (utility specialists) recognition and course accreditation, and to organize annual conference "ICUMAS" in worldwide.

China International Underground Pipeline Exhibition & Conference 2014

Background

CIUP is a trading platform of utility industry, and a bridge of communication for related enterprises, organizations and industries from China and overseas, which is significantly impacting utility industries in Asia including China. CIUP is composed by summit forum, exhibition and thematic activities.

Highlights

An official pageant of China Utility Industry

- Opportunities for new projects, and discussion for policy framework, new laws and regulations
- Industry associations, local enterprises and scientific research institutions actively involved.

Information exchange between industry experts

- Topic of concern will be discussed by senior industry experts, and concrete cases will be analyzed and elaborated.

Communication Platform

- As an effective platform for participating guests and exhibitors to get in touch with their potential partners.

Meeting with senior officials

- A close dialogue between Government officials and industry representatives.

CIUP EXPO 2014

Conference Agenda

The 4th International Conference on Utility
Management & Safety (ICUMAS) Summit

Track 1	BIM
Track 2	Total Asset Management
Track 3	Laws and Regulations in China Construction Industry

Saturday, November 15, 2014

08:00 am - 08:45 am	Registration		
08:45 am - 09:00 am	Welcome Address		
09:00 am - 09:30 am	Exhibits Open	China Mega Infrastructure Projects (Representative from Ministry of Housing and Urban-Rural Development of the People's Republic of China)	
09:30 am - 10:00 am		Keynote Address: Ir WAI Chi-sing, JP, Permanent Secretary of Development Bureau (Works) BIM and Utility Asset Management – New Dimension for Growth	
10:00 am - 10:20 am		Coffee Break	
10:20 am - 10:50 am		Challenges in Utility Asset Management (Ir Dr. King Wong)	
10:50 am - 11:20 am		The Role of BIM in Asset Management	
11:20 am - 11:50 am		Smart Assessment of Pipe Condition	
12:00 nn - 1:30 pm	Lunch Buffet		
1:45 pm - 3:30 pm	BIM	Total Asset Management	Laws and Regulations in China Construction Industry
3:45 pm - 4:15 pm	Talk		
4:15 pm - 5:00pm	Talk		
5:00pm - 5:15pm	Closing		

Registration Form

Charging Rate for the 4th ICUMAS		
Registration ¹	Standard Rate	Special Rate ²
Early Bird on/before 31 August 2014	US\$310 / HK\$2,400 x _____ * = US\$ _____ / HK\$ _____	US\$220 / HK\$1,700 x _____ * = US\$ _____ / HK\$ _____
Normal Registration after 31 August 2014	US\$390 / HK\$3,000 x _____ * = US\$ _____ / HK\$ _____	US\$270 / HK\$2,100 x _____ * = US\$ _____ / HK\$ _____
Sponsorship for advertisement (CIUP and ICUMAS Proceedings)	<input type="checkbox"/> Front Cover for US\$5,100 / HK\$39,000
